What We Do

Connecticut Parks Association is dedicated to providing professionals with educational workshops, legislative updates and networking opportunities. Formerly known as the Connecticut Public Parks Administrators, CPA was formed in 1958 to promote accession, development, maintenance and preservation in the State and its communities; as well as to develop a network and fellowship among parks professionals in the State.

The organization is further regarded as a unit for actively promoting favorable legislation for parks and park development, both on the State and national level.

About the Organization

The organization is comprised of a 7-person volunteer board who meets three times a year to discuss and pave the way for professionals in parks-related industries.
